---

PROFESSIONAL EXPERIENCE

ADAMAS BACKEND SERVICES PVT. LTD.

Senior Team Leader
9 Months | Noida, Uttar Pradesh

- Lead and manage team operations while monitoring daily productivity and performance.
- Handle customer-related operations, escalations and process coordination.

- Monitor team KPIs and prepare performance reports for management.
- Maintain and update CRM records and customer-related information.
- Coordinate with internal teams to resolve operational and customer issues.
- Support team members with process guidance, issue resolution and performance improvement.
- Work with Excel, CRM and operational data for daily reporting and analysis.
- Conduct team briefings and communicate process updates and business requirements.
- Monitor targets, productivity and quality metrics to maintain process performance.

iENERGIZER

Team Leader
~1.5 Years | Noida, Uttar Pradesh

- Managed day-to-day team operations and supervised team members.
- Monitored productivity, quality and process performance.
- Handled customer escalations and supported team members in resolving complex issues.
- Prepared and maintained daily, weekly and monthly performance reports.
- Used CRM and Excel-based reports to track customer and team performance.
- Conducted team briefings and communicated process updates.
- Coordinated with management and support teams to achieve operational targets.
- Guided team members on process, customer handling and performance improvement.
- Maintained operational data and ensured accurate reporting.

TECHNICAL PROJECTS

Sales CRM & Revenue Management System

Python | Django | Django REST Framework | MySQL | Bootstrap

- Developed a web-based CRM for managing customers, leads, follow-ups, orders and revenue.
- Implemented authentication and role-based access.
- Developed CRUD operations for customers, leads and orders.
- Implemented lead assignment, follow-up tracking, search, filtering and pagination.
- Used Django ORM for database operations and relationships.
- Developed REST APIs for customer, lead and order management.
- Created dashboard metrics for leads, conversions, orders, revenue and agent performance.

- Added CSV/Excel data export functionality.

E-Commerce Web Application

Python | Django | MySQL | HTML | CSS | Bootstrap

- Developed product listing, categories, search and filtering functionality.
- Implemented registration, login, cart and order management.
- Created database relationships using Django ORM.
- Developed admin functionality for product and order management.
- Implemented order history and order-status tracking.

Employee Management System

Python | Django | MySQL | Bootstrap

- Developed an employee management application using Django.
- Implemented employee, department, attendance, salary and leave management.
- Built CRUD functionality with search and filtering.
- Implemented authentication and administrative controls.
- Used Django ORM and relational database concepts.

EDUCATION

Diploma in Computer Science & Engineering

Government Polytechnic Bighapur, Unnao, Uttar Pradesh
2021 – 2024

Intermediate

Ram Raj Balraji Devi Inter College, Basti, Uttar Pradesh
2021

High School

Ram Raj Balraji Devi Inter College, Basti, Uttar Pradesh
2019

TRAINING & CERTIFICATIONS

- **ADCA (Advanced Diploma in Computer Applications)** — MDSP Institute, Basti
- **Tally ERP 9 with GST** — MDSP Institute, Basti
- **Summer Training** — Lucknow, 2023
- **Python & Django Development** — Project-Based Learning

- **Advanced Excel, SQL & Power BI** — Skill Development

KEY STRENGTHS

- Team Leadership & People Management
- Python/Django Development
- Problem Solving
- CRM & Data Management
- MIS & Performance Reporting
- Customer Handling
- Logical Thinking
- Quick Learning & Adaptability
- Team Collaboration

CAREER OBJECTIVE

To transition my technical knowledge and professional leadership experience into an IT/software development career, contribute to real-world applications using Python and Django, and continuously grow as a backend developer.

Deepak Kumar
